## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claim 2 is allowed.

The following is a statement of reasons for the indication of allowable subject matter: claim 2 recites, inter alia, "obtaining data resulting from the interference of first beam and second beam within device under test representative of the voltages within region, wherein said first state is at a first voltage potential, and wherein second state is at a second voltage potential different from first voltage potential."

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations. Although Khoury (U.S. 6,163,378) discloses a Spectroscopic time integrative correlation for rapid medical diagnostic and universal image analysis, and Mok et al. (U.S. 5,438,439) disclose a Non-destructive readout mechanism for volume holograms using two wavelengths, they do not disclose the above-mentioned limitations.

### **Conclusion**

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
